

# PV-5 Fire extinguisher cabinets

PV-5/12, PV-5/12i and PV-5/6

## Description

---

Fire extinguisher cabinets are manufactured from 1,25 mm steel and the reels are made from 1 mm galvanized steel. The cabinet has a welded back wall that strengthens the structure and a reinforced door. The doors open 180 degrees.

There are cabinets for 6 kg and 12 kg fire extinguishers. One alternative is a model with an inspection window. The cabinets are suitable for outside use. Flush-mounting frames are available.

## Standard

---

Manufactured according to EN 671-1 standard specifications.

## Surface finish

---

Epoxy powder-coated

Standard colours:

- grey (RAL 7040)
- white (RAL 9016)
- red (RAL 3020)

## Fire extinguisher

---

The fire extinguishers are tested, inspected and approved according to EN3 standard regulations. They are equipped with a wall mounting bracket and a label. The fire extinguisher is not included in the price.

## Lock

---

The door is equipped with a special lock that is shielded by a breakable protective glass.

## Cabinet alternatives
